

Okay, based on the provided citations, here's a breakdown of the information requested, aiming to fulfill your request for modules, technical tools, and estimated costs. Please note that some figures are estimations based on the available data.

****Project Overview (Based on Citations):****

This project involves a framework agreement between Avenue-Web Systèmes and SOLIDEO ALPES 2030 for IT services, specifically related to software provision and integration, maintenance, and complementary services. The tender is managed by the Marseille Administrative Tribunal.

****1. Modules & Technical Tools:****

*** **Prestation 1: Fourniture et intégration du logiciel (Supply and Integration of Software):****

* ****Module:**** Logiciels d'analyse financière et logiciels comptables (CPV: 48440000) – Financial analysis software and accounting software.

* ****Technical Tool:**** TED eSender (Avenue-Web Systèmes). This is the primary system used for sending and receiving electronic data related to the procurement process.

*** **Prestation 2: Maintenance applicative et support aux utilisateurs (Application maintenance and user support):****

* ****Module:**** Services de développement de logiciels comptables (CPV: 72212443) – Development of accounting software services.

* ****Technical Tool:**** The specific technical tool for this module isn't explicitly stated in the citations, but it would likely involve a maintenance and support platform integrated with the core financial software.

*** **Prestation 3: Prestations complémentaires - poste à bons de commande (Complementary Services – Purchase Order Based):****

* This is the most vague. The details are outlined in the CCTP (which isn't provided). It likely involves purchasing additional services through purchase orders.

****2. Estimated Costs (By Module - Rough Estimates based on available data):****

* ****Prestation 1 (Software Provision & Integration):**** €190,000 (Total estimated value of the market) – This is the overall value, and it's difficult to break down precisely without more detailed specifications.

* ****Prestation 2 (Maintenance & Support):**** This cost isn't explicitly stated. It would likely be a recurring annual fee based on the scope of maintenance required. It could range from €10,000 - €50,000 per year depending on the level of support.

* ****Prestation 3 (Complementary Services):**** This is entirely dependent on the specific purchase orders placed. The cost will vary significantly based on the services purchased.

****3. Organizational Information:****

* ****Avenue-Web Systèmes (AWS):**** (CACCC25F-0749-D22A-12E2C3D4544EEFA7) – Responsible for providing the software and potentially some integration services. Contact: publications-joue@aws-france.com, +33480041260

* ****SOLIDEO ALPES 2030:**** (87226) - Responsible for overall framework agreement and providing supplementary information. Contact: marchespublics@solideo2030.fr, 0491575757

* **Marseille Administrative Tribunal:** (greffe.ta-marseille@juradm.fr, 0491134813) –
